

This Week

The median list price in FORT WASHINGTON, PA 19034 this week is \$575,000.

Demand measured by the Market Action Index is increasing and days-on-market is trending downward. Even as more properties come available, these are positive trends for the market.

Supply and Demand

- Home sales continue to outstrip supply and the Market Action Index has been moving higher for several weeks. This is a Seller's market so watch for upward pricing pressure in the near future if the trend continues.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
